Casagrande AG has been a Lucerne-based family business since 1948. We sell souvenirs, watches, cosmetics and luxury goods in our 5 branches and employ around 120 people. We develop almost 100% of the business software in-house, which is very efficient due to the short communication channels. For our head office at Grendelstrasse 6 in Lucerne, we are looking for a personality as a

Fullstack Software Developer 80-100% (m / f / o)

Your Tasks

- Planning, conception and realization of new and sophisticated software solutions together with the involved departments (warehouse, sales, ...)
- Improvement of the self-developed ERP software (C#)
- Improvement of mobile applications (Ionic, Android)
- Collaboration on projects

Our Technologies

- MVVM architecture, SQL server, REST webservice, OpenAPI specification
- .Net ecosystem: C#, WPF, XAML, Entity Framework
- HTML5, CSS, Typescript, Angular 2+, Ionic, Docker

Your Profile

- Bsc. Or Msc in Computer Sciences or equivalent
- At least 2 years professional experience
- Fascination for software design and development of qualitative, reliable and user-friendly software
- Very good knowledge of C# or another statically typed programming language such as Java
- Practical experience with WPF, XAML, HTML5, CSS3 and/or Typescript advantageous
- Economic background, as well as experience with Linux / network design useful
- Some communication in German

Our Offer

- Independent and versatile activity with a lot of self-responsibility
- Central workplace near Lucerne railway station
- Very flexible working hours, option for home office
- Small and committed IT-team
- Contribute and develop Open Source

At Casagrande AG a team awaits you, where everyone can work hard and independently, but also help each other and contribute to the family atmosphere.
